BENEFIT TO MANKIND
Made knowledge more accessible and expanded learning across generations.

010 ALBERT EINSTEIN
PHYSICS
ACCOMPLISHMENT
Modern astronomy, satellite navigation, and cosmology still build on his insights.
BENEFIT TO MANKIND
Deepened understanding of nature and enabled later scientific and technical advances.

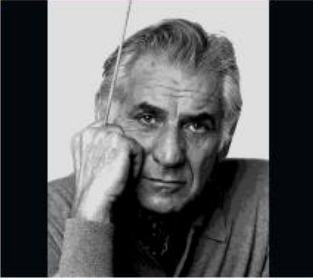

011 EMMY NOETHER
MATHEMATICS
ACCOMPLISHMENT
Physicists and mathematicians still use her ideas as part of nature's deepest grammar.
BENEFIT TO MANKIND
Supplied powerful tools for reasoning, technology, policy, and better decisions.

012 LISE MEITNER
NUCLEAR PHYSICS
ACCOMPLISHMENT
Her science changes the world; her life also insists that discovery carries responsibility.
BENEFIT TO MANKIND
Deepened understanding of nature and enabled later scientific and technical advances.

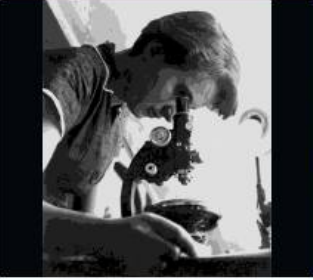

013 JOHN VON NEUMANN
MATH + COMPUTING
ACCOMPLISHMENT
Computing, simulation, game theory, and weather prediction continue to use his ideas.
BENEFIT TO MANKIND
Supplied powerful tools for reasoning, technology, policy, and better decisions.

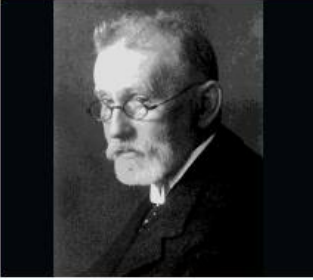

014 LEONARD BERNSTEIN
MUSIC + EDUCATION
ACCOMPLISHMENT
His televised teaching invites young audiences to hear music with curiosity and joy.
BENEFIT TO MANKIND
Made knowledge more accessible and expanded learning across generations.

015 RICHARD FEYNMAN
PHYSICS + TEACHING
ACCOMPLISHMENT
Playful but exacting teaching inspires generations to understand rather than memorize.
BENEFIT TO MANKIND
Made knowledge more accessible and expanded learning across generations.

016 ROSALIND FRANKLIN
MOLECULAR BIOLOGY
ACCOMPLISHMENT
Her rigor advances DNA, virus, and carbon research - and earns overdue recognition.
BENEFIT TO MANKIND
Revealed how living systems work and opened paths to future medicine.

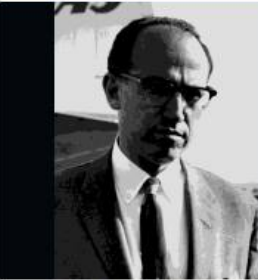

017 PAUL EHRLICH
IMMUNOLOGY
ACCOMPLISHMENT
Immunology, staining, and targeted drug development grow from that powerful concept.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

018 SELMAN WAKSMAN
MICROBIOLOGY
ACCOMPLISHMENT
For the first time, tuberculosis - long a global terror - has an effective antibiotic treatment.
BENEFIT TO MANKIND
Revealed how living systems work and opened paths to future medicine.

WHO NEEDS THE JEWS?

THEY SAY JEWS ARE TAKERS. THE TRUTH IS THEY ARE GIVERS.

019 JONAS SALK
VACCINES
ACCOMPLISHMENT
Vaccination returns children to schools, playgrounds, and pools without the old fear.

020 ALBERT SABIN
GLOBAL HEALTH
ACCOMPLISHMENT
Mass campaigns immunize millions and move the world closer to eliminating polio.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

021 GERTRUDE B. ELION
MEDICINE
ACCOMPLISHMENT
Her methods yield medicines for leukemia, infections, gout, and organ transplantation.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

022 RITA LEVI-MONTALCINI
NEUROSCIENCE
ACCOMPLISHMENT
The discovery opens new paths in neuroscience, while she mentors the next generation.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

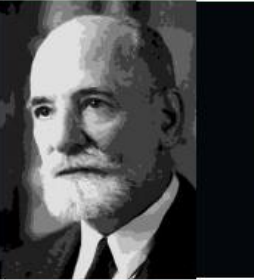

023 BARUCH S. BLUMBERG
PUBLIC HEALTH
ACCOMPLISHMENT
Vaccination prevents chronic infection and many cases of liver cancer around the globe.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

097 ROSALYN YALOW
MEDICAL PHYSICS
ACCOMPLISHMENT
She co-developed radioimmunoassay, enabling extremely small amounts of hormones and other substances in blood to be measured accurately.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

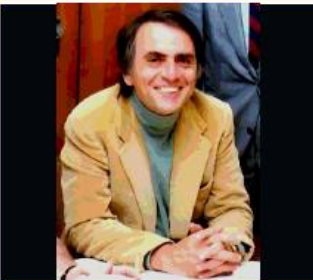

098 VERA RUBIN
ASTRONOMY
ACCOMPLISHMENT
Her measurements of galaxy rotation supplied compelling evidence that galaxies contain vast amounts of unseen dark matter.
BENEFIT TO MANKIND
Deepened understanding of nature and enabled later scientific and technical advances.

099 LILLIAN WALD
PUBLIC-HEALTH NURSING
ACCOMPLISHMENT
She founded the Henry Street Settlement and helped establish public-health nursing as organized care delivered within communities.
BENEFIT TO MANKIND
Improved prevention, treatment, health, or humane care for people worldwide.

100 GERTY CORI
BIOCHEMISTRY
ACCOMPLISHMENT
She and Carl Cori explained how the body converts glycogen and glucose, establishing the cycle that bears their name.
BENEFIT TO MANKIND
Revealed how living systems work and opened paths to future medicine.

101 CARL SAGAN
ASTRONOMY + SCIENCE EDUCATION
ACCOMPLISHMENT
His planetary research and public communication brought rigorous scientific curiosity about Earth and the cosmos to millions.
BENEFIT TO MANKIND
Made knowledge more accessible and expanded learning across generations.

102 JOSHUA LEDERBERG
MICROBIAL GENETICS
ACCOMPLISHMENT
He demonstrated genetic recombination in bacteria, helping establish bacterial genetics and advancing understanding of microbial evolution.
BENEFIT TO MANKIND
Revealed how living systems work and opened paths to future medicine.

103 MARSHALL NIRENBERG
MOLECULAR BIOLOGY
ACCOMPLISHMENT
He helped decipher the genetic code, showing how nucleotide sequences specify the amino acids used to build proteins.
BENEFIT TO MANKIND
Revealed how living systems work and opened paths to future medicine.

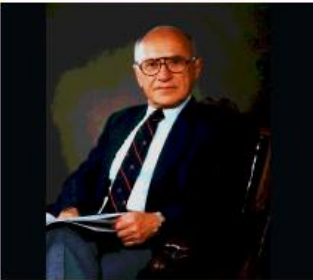

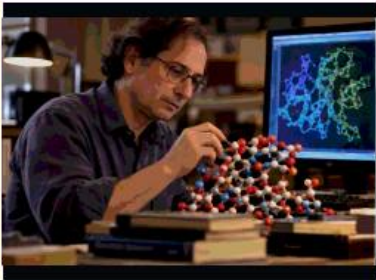

104 SAUL PERLMUTTER
ASTROPHYSICS
ACCOMPLISHMENT
His supernova observations helped reveal that the expansion of the universe is accelerating, transforming modern cosmology.
BENEFIT TO MANKIND
Deepened understanding of nature and enabled later scientific and technical advances.

105 ARIEH WARSHEL
COMPUTATIONAL CHEMISTRY
ACCOMPLISHMENT
He helped develop multiscale computer models that explain complex chemical reactions in molecules and biological systems.
BENEFIT TO MANKIND
Supplied powerful tools for reasoning, technology, policy, and better decisions.

106 MICHAEL LEVITT
COMPUTATIONAL BIOLOGY
ACCOMPLISHMENT
He developed pioneering computational methods for modeling the structures and behavior of large biological molecules.
BENEFIT TO MANKIND
Supplied powerful tools for reasoning, technology, policy, and better decisions.

107 MILTON FRIEDMAN
ECONOMICS
ACCOMPLISHMENT
His research on consumption, monetary history, and stabilization policy profoundly influenced modern economic analysis and public debate.
