

A MIRACLE OF HOPE

Dear Friend, my name is Abraham Davidson.

Eighteen years ago, a neurologist gave us the diagnosis: cerebral palsy.

We were shocked and heartbroken.

Then a social worker told us about Tikva Layeled.

THE LONG ROAD FORWARD

Her therapists refused to give up on Pessi.

They encouraged her every step of the way.

It was a grueling schedule, but Pessi persisted.

After seven years, she entered a regular school—and thrived.

THE MIRACLE OF CHANUKAH

Then, on Chanukah,
the miracle happened.

Pessi became engaged to be married.

Our joy was indescribable.

Never give up. Miracles happen
when we do everything in our power.

HELP MAKE MORE MIRACLES POSSIBLE

Tikvah Layeled treats more than 400 children every year.

Therapy, education, technology, and life skills help each child participate in everyday life.

This work comes at a high cost. There is no way they can do it alone.

Please open your heart and help children with cerebral palsy reach their fullest potential.

*Yours truly,
Abraham Davidson*
